Introduction

This document presents a comprehensive bibliography of documents related to gender and education in Ghana, West Africa and internationally. The bibliography was compiled from research, communications, evaluation, published and grey literature as part of a larger initiative designed to generate an evidence base on what works in girls education, with a particular focus on Ghana. The evidence base will contribute to planning at the Girls’ Education Unit within the Ministry of Education (August-December, 2011), and has been supported by DFID.
